PRONOUNCEMENT

The author truthfully states that he finished his thesis titled "Hierarchy of Needs and Preconditions for Need Satisfactions of Mickey Barnes in Edward Ashton's *Mickey 7*". The thesis was devised without plagiarizing other existing works from other researchers in any university, in diploma degree, S-1, S-2, and S-3 degree. All the data was gathered by the writer himself and I confirmed that in the process, I did not acquire data from other works except those that are mentioned in the references.

ACKNOWLEDGEMENT

Glory and tremendous gratitude to God who has given the author the courage and determination to complete the thesis and paved the way for the author to finish his study. The gratitude also extends to all the people who have helped the author during his time in devising this thesis.

The sincerest gratitude is expressed to my thesis advisor Zietha Arlamanda Asri, S. Hum., M. A. who gave her time and dedication to help and guide the author with detailed and extensive counselling through which she counselled with patience so the author managed to finish and polish the thesis. Without her support and dedication, it would be uncertain for the author to devise and finish the thesis in a good form.

My greatest thank also goes to the following:

1. Prof. Dr. Alamsyah, S.S., M.Hum., as the Dean of Faculty of Humanities, Diponegoro University.
2. Dr. Oktiva Herry Candra, M.Hum., as the former Head of the English Department of the Faculty of Humanities, Diponegoro University.
3. All lecturers of the English Department Diponegoro University. Their insights and knowledge have forged and filled the author with understandings regarding English literature.
4. My parents who have been supportive throughout my academic journey and have been one of the reasons for the author to finish his college.

5. To all my friends, especially those who have been close friends with me such as Pasha, Fauzan, Rizal, Bintang, Fadel, Iqbal, Naufal, and Afan who have been good and supportive throughout my entire academic venture.

6. To my friends from literature class, Luna and Cindy who have been kind and supportive throughout the creation process of this thesis.

The author acknowledged that this thesis has drawbacks and as a result, the author is open and will accept suggestions and criticism that would improve the quality of this thesis. I hope that with the creation of this thesis, it would help other people who are interested to learn more about hierarchy of needs and its preconditions and hope that other authors can create and expand on this topic in the future.
