| <b>SUMMARY.....</b>                                         | <b>xiii</b> |
| <b>BAB I PENDAHULUAN.....</b>                               | <b>14</b>   |
| 1.1    Latar Belakang .....                                 | 14          |
| 1.2    Rumusan Masalah .....                                | 17          |
| 1.3    Tujuan Penelitian.....                               | 18          |
| 1.4    Manfaat Penelitian .....                             | 18          |
| 1.5    Kebaruan Penelitian .....                            | 18          |
| <b>BAB II TINJAUAN PUSTAKA.....</b>                         | <b>20</b>   |
| 2.1    Membran .....                                        | 20          |
| 2.2    Kitosan sebagai Bahan Dasar Membran .....            | 21          |
| 2.3    Modifikasi Membran Kitosan .....                     | 22          |
| 2.4    Vanilin sebagai Agen Taut Silang dalam Kitosan ..... | 23          |
| 2.5    Reaksi Basa Schiff .....                             | 24          |
| 2.6    Gelatin sebagai Agen Paduan dalam Kitosan.....       | 25          |
| 2.7    Peran Membran dalam Proses Hemodialisis.....         | 26          |
| 2.8    Peran Membran dalam Adsorpsi Zat Warna .....         | 27          |
| 2.9    Kristal Violet .....                                 | 28          |
| 2.10   Karakterisasi.....                                   | 29          |
| 2.10.1   Spektroskopi FTIR.....                             | 29          |
| 2.10.2   XRD .....                                          | 30          |
| 2.10.3   SEM .....                                          | 31          |
| 2.10.4   Uji Hemokompatibilitas .....                       | 32          |
| <b>BAB III METODE PENELITIAN .....</b>                      | <b>34</b>   |
| 3.1    Alat dan Bahan.....                                  | 34          |
| 3.1.1    Bahan Penelitian .....                             | 34          |
| 3.1.2    Alat.....                                          | 35          |

|         |                                                            |    |
|---------|------------------------------------------------------------|----|
| 3.2     | Variabel Penelitian .....                                  | 35 |
| 3.2.1   | Variabel Terikat .....                                     | 35 |
| 3.2.2   | Variabel Bebas.....                                        | 35 |
| 3.2.3   | Variabel Terukur .....                                     | 35 |
| 3.3     | Prosedur Penelitian .....                                  | 35 |
| 3.3.1   | Sintesis Membran Kitosan (CS).....                         | 36 |
| 3.3.2   | Sintesis Membran Kitosan-Gelatin (CG).....                 | 36 |
| 3.3.3   | Sintesis Membran Kitosan/Vanilin/Gelatin (CS/GEL-VAN)..... | 36 |
| 3.3.4   | Karakterisasi Membran .....                                | 37 |
| 3.3.4.1 | Massa dan ketebalan .....                                  | 37 |
| 3.3.4.2 | Porositas .....                                            | 38 |
| 3.3.4.3 | Derajat Pengembangan ( <i>Swelling</i> ) .....             | 38 |
| 3.3.4.4 | Daya Serap Air ( <i>Water Uptake</i> ) .....               | 39 |
| 3.3.4.5 | Hidrofilisitas.....                                        | 39 |
| 3.3.4.6 | Kekuatan Tarik ( <i>Tensile Strength</i> ).....            | 39 |
| 3.3.4.7 | FTIR .....                                                 | 39 |
| 3.3.4.8 | XRD .....                                                  | 40 |
| 3.3.4.9 | SEM .....                                                  | 40 |
| 3.3.5   | Studi Transport Membran .....                              | 40 |
| 3.3.5.1 | Kurva Kalibrasi Kreatinin dan Urea .....                   | 40 |
| 3.3.5.2 | Transport Kreatinin .....                                  | 41 |
| 3.3.5.3 | Transport Urea.....                                        | 41 |
| 3.3.5.4 | Fluks Membran .....                                        | 41 |
| 3.3.6   | In Vitro Studi Hemokompatibilitas .....                    | 42 |
| 3.3.6.1 | Adsorpsi Protein.....                                      | 42 |
| 3.3.6.2 | Rasio Hemolisis .....                                      | 42 |
| 3.3.6.3 | Waktu Thromboplastin Parsial (PTT) .....                   | 43 |
| 3.3.6.4 | Pembentukan Trombus.....                                   | 43 |
| 3.3.7   | Studi Adsorpsi Membran .....                               | 44 |
| 3.3.8   | Kinetika Adsorpsi.....                                     | 45 |
| 3.3.8.1 | Pseudo-orde pertama.....                                   | 45 |
| 3.3.8.2 | Pseudo-orde kedua .....                                    | 45 |
| 3.3.9   | Isoterm Adsorpsi .....                                     | 46 |
| 3.3.9.1 | Isoterm Langmuir.....                                      | 46 |

|                                         |                                                                   |           |
|-----------------------------------------|-------------------------------------------------------------------|-----------|
| 3.3.9.2                                 | Isoterm Freundlich .....                                          | 46        |
| 3.3.10                                  | Termodinamika Adsorpsi .....                                      | 47        |
| <b>BAB IV HASIL DAN PEMBAHASAN.....</b> |                                                                   | <b>48</b> |
| 4.1                                     | Hasil Sintesis Membran Kitosan/Vanilin/Gelatin (CS/GEL-VAN) ..... | 48        |
| 4.2                                     | Gugus Fungsi Membran.....                                         | 51        |
| 4.3                                     | Struktur Kristalinitas Membran .....                              | 55        |
