

ABSTRACT

Based on the State of the Global Islamic Economy Report 2022, the world's demand for and interest in the halal industry continues to increase, especially Indonesia which has continued to experience rapid growth in the halal industry since 2019. As many as 81 countries in the world use Islamic economic indicators to improve the country's economic ecosystem, which Indonesia ranks 4th in the world. That fact increasingly demands the implementation of Islamic business management based on the Al-Qur'an and Al-Hadith. One of the practical aspects of business management based on Islamic principles that can be seen in the halal industry in Indonesia is Islamic retail. This study aims to explore Islamic principles in Islamic management practices in the retail business of Mina Swalayan Syariah Yogyakarta. This research uses a qualitative approach with a single instrumental case study as a method that only focuses on one particular issue. This method was chosen to discuss more specifically Islamic principals in business management practices at Mina Swalayan Syariah.

The results of the study show that Islamic principles, namely Tawhidic, Worship, Trust and Responsibility, Wisdom, Justice, Compassion, Cooperation, Halaalan Thayyiban, and Discussion have been well implemented by Mina Swalayan Syariah retail. However, the study only uses informants from one sharia retail, thus it is not able to explain the wider scope of Islamic management practices.

Keywords: Islamic Management, Islamic principles, Islamic Management Practices
