Publisher : International Research Publication House

Aim and Scope: The *International Journal of Wireless Networks and Communications* is an international journal of high quality devoted to the publication of original research papers from all areas focusing on theories, methods, and applications in wireless communications and networking technologies. Areas and subareas of interest include (but are not limited to) wireless networks and communications including devices, hardware, software, architectures, networks, systems, support services, algorithm/protocol design and analysis, mobile environments, implementation and emerging technologies.

Publication Date and Frequency: Two issues per year.

Submission of Paper: Manuscripts are invited from academicians, research students, and scientists for publication consideration. Papers are accepted for editorial consideration through email submit@ripublishation.com with the understanding that they have not been published, submitted or accepted for publication elsewhere. Please mention journal title in your email.
