*International Journal of Engineering and Technology (IJET)* is an international academic open access journal which gains a foothold in Singapore, Asia and opens to the world. It aims to promote the integration of Engineering and Technology. The focus is to publish papers on state-of-the-art Engineering and Technology. Submitted papers will be reviewed by technical committees of the Journal and Association. The audience includes researchers, managers and operators for Engineering and Technology as well as designers and developers.

All submitted articles should report original, previously unpublished research results, experimental or theoretical, and will be peer-reviewed. Articles submitted to the journal should meet these criteria and must not be under consideration for publication elsewhere. Manuscripts should follow the style of the journal and are subject to both review and editing.
