# Preface

Wilujeng Sumping,

Welcome to 2015 Fourth International Conference on Instrumentation, Communications, Information Technology, and Biomedical Engineering (ICICI-BME), in Bandung, Indonesia.

On behalf of the organizing committee, we are delighted to welcome all of the participants to the ICICI-BME 2015. This biennial conference is organized under the auspices of the Institut Teknologi Bandung (ITB), Indonesian Sensor and Actuator System Society (ISASS), Indonesian Biomedical Engineering Society (IBES), and sponsored by the School of Electrical Engineering & Informatics, the Faculty of Mathematics & Natural Sciences, together with IEEE Indonesia EMB and CAS Chapters.

ICICI-BME is dedicated to the presentation and discussion of the latest developments and ideas in instrumentation, measurements, communications, information technology, and biomedical engineering, in both theory and application.

This conference also aims to strengthen the collaboration among international researchers, scientists, engineers, and industrial players in the fields of science and engineering. It is designed to be a meeting point for those who are involved, to globally exchange and share their views, ideas, and advances in science, technology, and industrial aspects.

Our gratitude to many people which helped making this conference a reality, to all of our invited speakers and guests, and for all of our committee members for their effort to ensure the success of this conference. Finally, we hope that all of participants will learn new things, make new contacts, get new ideas, and have fruitful discussion while having a pleasant experience during our conference in Bandung.

Hatur Nuhun, Thank You
