**Catatan Penilaian artikel oleh Reviewer :**

**1. Kelengkapan unsur isi jurnal:**

Artikel telah ditulis secara lengkap mulai dari judul, abstrak, pendahuluan hingga referensi dan sesuai template Internasional Journal of Computer Applications.

**2. Ruang lingkup dan kedalaman pembahasan:**

Ruang lingkup kedalaman pembahasan sudah diungkapkan dengan baik. Gambar 6 s/dgbr 11 tidak ada keterangan atau pembahasan sama sekali, termasuk table-table hasil penelitian.

**3. Kecukupan dan kemutakhiran data/informasi dan metodologi:**

Data penelitian yang diperoleh sudah memadai namun masih minim informasi. Hasil penelitian sudah sesuai dengan metodologi yang dilakukan. Artikel disusun berdasarkan 14 referensi dan mutakhir. Hasil uji similaritas sangat baik yaitu 6%.

**4. Kelengkapan unsur dan kualitas terbitan:**

Secara umum kelengkapan unsur artikel lengkap dan kualitas penerbit kurang baik. Penulisan referensi tidak konsisten dalam penulisan penulis ada yang ditulis et.al ada yang semuanya ditulis lengkap. Judul referensi juga ada yang ditulis huruf besar semua. Banyak kesalahan dalam table misalnya yang seharusnya ditulis titik (.) ditulis koma (,) dan table 3 double.

Each of the IJCA articles are archived and indexed with prestigious academic indexes including DOAJ, Google Scholar, Informatics, ProQuest CSA Technology Research Database, NASA ADS, ScientificCommons (Univ. of St Gallens), University of Karlsruhe, Germany, Georgetown University Library and Washington University.

The databases provide an ongoing, permanent online archive of International Journal of Computer Applications articles, and migrates content from one file format to another as technology changes and as file formats become obsolete. Even in the event that IJCA ceases operations or is unable to deliver articles worldwide, our archiving partners make certain that IJCA's entire scholarly journal collection is preserved for future scholars, researchers, and students. We will continue to enhance our indexing and archiving systems and stay up to date with evolving industry standards.

International Journal of Computer Applications articles are archived according to leading industry standards. We are pleased to participate in LOCKSS, one of the respected independent archives of scholarly journals. LOCKSS, based at Stanford University Libraries, is an international community initiative that provides libraries with digital preservation tools and support so that they can easily and inexpensively collect and preserve their own copies of authorized e-content. LOCKSS, in its eleventh year, provides libraries with the open-source software and support to preserve today's web-published materials for tomorrow's readers while building their own collections and acquiring a copy of the assets they pay for, instead of simply leasing them. LOCKSS provides 100% post cancellation access.
