ABSTRACT

Analysis of the problem of a legal consequence of the entry of foreign investment and investment in Indonesia in the category of Start Up companies as well as the legal process for foreign investment in Indonesian start-up companies, a form of legal protection for start-up companies in Indonesia for contract violations committed by foreign investors. To find out the legal process for foreign investment in Indonesian Start Up companies.

This legal writing aims to find out the legal process of foreign investment in Indonesian start-up companies also has the aim of knowing what forms of legal protection are given to Indonesian start-up companies if a breach of contract is found by foreign investors. The approach method used in this research is the normative juridical method, meaning that the issues raised, discussed and described in this study are focused on applying the rules or norms in positive law.

The results of this study are in the form of arrangements for making an investment, whether it is domestic or together with foreign investors, it must be clear from the legal aspect and the flow of the agreement to be made such as making a cooperation agreement which is usually often called a "Joint Venture Agreement" and this is formed into a contract which became the basis or the beginning of the cooperation, namely the name "Joint Venture Company". All the names of the agreements above are subject to permanent legal force and can be accounted for for their existence and validity. Then the form of legal protection provided by the government is clear, laws to protect domestic investors, both foreign investors, Investment Law Number 25 of 2007 and also on public and private companies, other Presidential Regulations, and the Civil Code regarding the agreement chapter.
