

## DAFTAR ISI

|                                                                              |      |
|------------------------------------------------------------------------------|------|
| HALAMAN PENGESAHAN.....                                                      | i    |
| KATA PENGANTAR .....                                                         | ii   |
| DAFTAR ISI.....                                                              | iv   |
| DAFTAR TABEL.....                                                            | vii  |
| DAFTAR GAMBAR .....                                                          | viii |
| DAFTAR LAMPIRAN.....                                                         | ix   |
| DAFTAR SINGKATAN .....                                                       | x    |
| ABSTRAK.....                                                                 | xi   |
| <i>ABSTRACT</i> .....                                                        | xii  |
| BAB I PENDAHULUAN.....                                                       | 1    |
| I.1 Latar Belakang .....                                                     | 1    |
| I.2 Tujuan Penelitian .....                                                  | 4    |
| BAB II TINJAUAN PUSTAKA.....                                                 | 5    |
| II.1 Fotokatalisis.....                                                      | 5    |
| II.2 Titanium dioksida (TiO <sub>2</sub> ).....                              | 7    |
| II.3 <i>Graphitic Carbon Nitride</i> (g-C <sub>3</sub> N <sub>4</sub> )..... | 9    |
| II.4 <i>Metal Organic Frameworks</i> (MOFs).....                             | 10   |
| II.5 <i>Zeolitic Imidazolate Framework-8</i> (ZIF-8) .....                   | 11   |
| II.6 Metilen biru .....                                                      | 13   |
| II.7 Instrumentasi.....                                                      | 14   |
| II.7.1 <i>X-Ray Diffraction</i> (XRD).....                                   | 14   |
| II.7.2 <i>Fourier Transform Infrared</i> (FTIR).....                         | 16   |

|                                                                                       |    |
|---------------------------------------------------------------------------------------|----|
| II.7.3 <i>Ultraviolet Diffuse Reflectance Spectroscopy</i> (UV-Vis DRS).....          | 17 |
| II.7.4 <i>Brunauer-Emmett-Teller</i> (BET).....                                       | 19 |
| II.8 Spektrofotometri UV-Vis .....                                                    | 20 |
| II.9 Kinetika Degradasi .....                                                         | 22 |
| BAB III METODE PENELITIAN.....                                                        | 24 |
| III.1 Variabel Penelitian .....                                                       | 24 |
| III.1.1 Variabel Tetap.....                                                           | 24 |
| III.1.2 Variabel Berubah .....                                                        | 24 |
| III.1.3 Variabel Terikat .....                                                        | 24 |
| III.2 Alat dan Bahan .....                                                            | 25 |
| III.3 Prosedur Penelitian.....                                                        | 25 |
| III.3.1 Sintesis Titanium Dioksida ( $\text{TiO}_2$ ) .....                           | 25 |
| III.3.2 Sintesis <i>Graphitic Carbon Nitride</i> ( $\text{g-C}_3\text{N}_4$ ).....    | 26 |
| III.3.3 Sintesis ZIF-8 ( <i>Zeolitic Imidazolate Framework-8</i> ) .....              | 26 |
| III.3.4 Komposit ZIF-8/ $\text{TiO}_2$ .....                                          | 27 |
| III.3.5 Komposit ZIF-8/ $\text{TiO}_2$ / $\text{g-C}_3\text{N}_4$ .....               | 27 |
| III.3.6 Karakterisasi Material.....                                                   | 28 |
| III.3.7 Aplikasi Fotokatalitik .....                                                  | 28 |
| BAB IV HASIL DAN PEMBAHASAN .....                                                     | 31 |
| IV.1 Hasil Sintesis Titanium Dioksida ( $\text{TiO}_2$ ) .....                        | 31 |
| IV.2 Hasil Sintesis <i>Graphitic Carbon Nitride</i> ( $\text{g-C}_3\text{N}_4$ )..... | 34 |
| IV.3 Hasil Sintesis <i>Zeolitic Imidazolate Framework-8</i> (ZIF-8).....              | 36 |
| IV.4 Hasil Sintesis ZIF-8/ $\text{TiO}_2$ .....                                       | 39 |
| IV.5 Hasil Sintesis ZIF-8/ $\text{TiO}_2$ / $\text{g-C}_3\text{N}_4$ .....            | 42 |
| IV.6 Hasil karakterisasi .....                                                        | 44 |

|                                                        |    |
|--------------------------------------------------------|----|
| IV.6.1 Hasil Karakterisasi XRD .....                   | 44 |
| IV.6. 2 Hasil Karakterisasi FTIR .....                 | 49 |
| IV.6.3 Hasil Karakterisasi UV-DRS .....                | 54 |
| IV.6.4 Hasil Karakterisasi BET .....                   | 56 |
| IV.7 Aplikasi Fotokatalitik .....                      | 61 |
| IV.7.1 Penentuan Panjang Gelombang Maksimum .....      | 61 |
| IV.7.2 Penentuan Kurva Kalibrasi Larutan Standar ..... | 61 |
| IV.7.3 Fotokatalisis dengan Variasi Waktu .....        | 63 |
| IV.7.3 Studi Kinetika Reaksi .....                     | 72 |
| BAB V PENUTUP .....                                    | 76 |
| V.1 Kesimpulan .....                                   | 76 |
| V.2 Saran .....                                        | 76 |
| DAFTAR PUSTAKA .....                                   | 77 |
| LAMPIRAN .....                                         | 94 |
