

## **ABSTRACT**

*This study aims to understand librarian role in forming “pustakawan kecil” in the library of Sekolah Dasar Islam Hidayatullah Semarang. This research use qualitative research method. Interviews, observation, and documentation studies used as data collection method. “Pustakawan kecil” program started in early 2018. This activity formed based on request from Head of SDI Hidayatullah Semarang. The puspose of “pustakawan kecil” program itself is to make students join organization and help librarian carry out their duties. The activities “pustakawan kecil” do are basic activities that librarian do such as shelving, book lending and return service also book arrangement. The obstacle that librarian face in “pustakawan kecil” program is student frequently out of focus because the program itself implemented during school break time. So students feel that their break is reduced and make them not focus implemented the program.*
