

ABSTRACT

The National Library of the Republic of Indonesia has formulated Higher Education National Library Standards as a reference in library management. This study aims to determine the extent of the application of college SNP and how librarians' perceptions of the application of college SNP in Unit Pelaksana Teknis (UPT) of the Diponegoro University Library in Semarang. The research method used in this study was a qualitative study using observation and interviews as data collection techniques. The interview was conducted in a semi-structured manner and involved 5 informants consisting of the head of the library, head of administration and librarian at UPT Diponegoro University Library. The data obtained were then analyzed using thematic analysis. From the results of data analysis found 4 themes related to library national standards that is, the application of snp, snp function, snp implementation constraints, and snp evaluation. The first theme is the application of national library standards in UPT Diponegoro University Library, namely in the development of collections, infrastructure, processing library materials, and library staff. The second theme tells about the function of the library's national standards based on the perception of librarians namely, as an increase in the quality of collections, consideration of accreditation assessment, references in management, and references to the uniformity of library management in Indonesia. the third theme is the constraints on the implementation of library national standards describing the obstacles in the management and constraints of university budget policies. Management constraints include, the addition of printed collections, library opening hours and limitations of library human resources. Policy constraints include, policies regarding electronic services, budget policies in developing collections, and university budget policies. The fourth theme is the evaluation of library national standards that tells about the library's national standards should add discussion about renewal, virtual visits, detailed explanations regarding the addition of collections, coordination between PNRI and the Ministry of Research and Education regarding the implementation of SNP higher education, administrative disciplines and keep running SOPs and manuals

Keywords: Standardization; Library National Standard; PNRI SNP; Higher Education Library National Standard; Indonesian National Standard
