

ABSTRACT

The Sustainable Development Goal is one of college's goals in implementing the Tri Dharma. The Sustainable Development Goal has 17 goals and 169 targets. One of its targets is Quality Education which is the fourth target. This research is purposed to identify the role of Academic libraries in supporting the implementation of Sustainable Development Goal 4. The research method used is qualitative method using semi-structured interviews to collect data. The collected data then being analyzed using Thematic Analysis. The results from the analysis show that there are two themes, which are Programs and Obstacles. The Programs is a theme that explains role the libraries to support the implementation of Sustainable Development Goal 4. It explains the providing access to information for users, the library cooperation programs with other parties who also take part in supporting the implementation of Sustainable Development Goal 4, and the training programs to develop human resources. The second theme is The Obstacles which arises because of the previous theme. The Obstacles explains the activities or the policies in libraries which can hamper the libraries to support the implementation of Sustainable Development Goal 4. This research is useful in providing recent knowledge that libraries play a role in supporting the implementation of Sustainable Development Goal 4.

Keywords: *role of library, academic library, Sustainable Development Goals, Sustainable Development Goal 4*
